## ABOUT IIRM

**IIRM** is a unique educational institute set up by Indian Insurance Regulator (IRDAI) and Government of Telangana keeping in mind the rapid opening up of financial sector as a part of developmental responsibility and to create a pool of skilled, talented professionals in the insurance, risk management and related financial segments. In the past, 1500 + students have availed of the programs and with increase in the needs of market. The Institute is confident that more fresh students and working professionals will avail of its diverse programs. IIRM offers academic programs on Campus and through Distance Learning Mode, to enable aspirants acquire much needed education in Financial Services, insurance and risk management and other related areas.

## ABOUT CONFERENCE

In the years so far, the corporate and financial sectors are used to the dynamism and disruptions coming from technology, innovations and competition. The business environment is also witnessing challenges of 'Volatility, Uncertainty, Complexity, and Ambiguity' (VUCA) adding new set of risks to the business environment.

The financial sector industry witnessed changes due to volatility in various high frequency economic indicators and business performance parameters like never before due to the Covid pandemic in early 2020. This exacerbates the risks to financial intermediation.

Given the current scenario of businesses, it has become imperative that financial intermediaries should gear up to meet the increased risks after fully comprehending the long-term impact of the pandemic and changing business cycles in the near term and long term that has follow on impact on risks.

## THEME OF THE CONFERENCE

The key decision-makers of banks and non-banks, other financial intermediaries in particular need to understand the nuances of risk management and then rework on the structure, policies, procedures, rules and build people competencies. It is important that one needs to handle the elevated levels of risks arising from the impact of the pandemic on businesses.

Looking to the nuances of risks in corporate sector, more particularly the financial sector, risk management is assuming greater significance in balancing the sourcing and allocation of business resources to ensure better stakeholder value. Understanding and exploring innovations in fine tuning risk management strategies

with the help of new technology tools - AI, Machine learning, robotics, simulations, sophisticated econometric models to better visualise the complexities of risks will be pertinent and relevant to the industry. Hence the epicentre of the conference shall focus on risk management in the post pandemic commercial world.
