

IIRM

(A Joint initiative of IRDAI and
Govt. of Telangana)

INSURANCE CONCLAVE 2023

INCLUSIVE INSURANCE -
THE WAY FORWARD

03-04
MARCH 2023

Institute of Insurance and Risk Management (IIRM) is a higher educational institute set up by IRDAI and Govt. of Telangana keeping in mind the rapid opening up of financial sector as a part of developmental responsibility and to create a pool of skilled, talented professionals for the insurance, risk management and related financial sectors. BFSI has been at its epicenter in creating leaders of tomorrow.

The Insurance Conclave 2023 will be held at the Institute of Insurance and Risk Management (IIRM), Gachibowli, Hyderabad, Telangana during March 03-04, 2023 (Friday-Saturday). The conference is being jointly organized by the IIRM and The Indian Econometric Society (TIES) at the IIRM campus. In this context IIRM invites full length research papers for the conference on the following broad theme “Insurance Inclusion- The way forward” and on other sub themes.

Since insurance sector is a larger part of financial sector, papers on financial sector themes and on sub-themes will be included for incisive policy debate and discussions at the conference. Authors are requested to submit their papers addressing any of the suggested/indicative sub-themes or thereabout. We encourage paper writers from Academic, Industry practitioners and policy makers.

ABOUT CONFERENCE

In the years so far, the corporate and financial sectors is increasingly exposed to the challenges and disruptions coming from technology, innovations and competition. In addition to the impact of pandemic, the business environment is also witnessing challenges of ‘Volatility, Uncertainty, Complexity, and Ambiguity’ (VUCA) adding new dimension of risks to the business environment that need new methods of mitigation. The Insurance industry in particular had witnessed unprecedented challenges due to volatility of various high frequency Insurance indicators and business performance parameters influenced by the Covid pandemic beginning 2020. It exacerbated the risks to insurance sector and to the entire financial intermediation. Given the current scenario of businesses, it has become imperative that financial intermediaries should gear up to meet the increased risks after fully comprehending the long-term impact of the pandemic and changing business cycles in the near term and long term that has follow on impact on risks. Amid the BFSI industries, Insurance sector came to center stage due to the global health crises providing challenges with bouts of innovative opportunities that needs be mirrored for greater insurance inclusion. The focus of the conference will be on nuances of ‘Insurance Inclusion’ but will also debate financial sector at large on synergy of wider range is to be harnessed.

IRDAI INITIATIVE

The Insurance Regulatory and Development Authority of India (IRDAI) is a regulatory body under the jurisdiction of Ministry of Finance, Government of India and is tasked with regulating and licensing the insurance and re-insurance industries in India. IRDAI is in forefront to bring about speedy and orderly growth of the insurance industry. Accordingly, IRDAI has taken a slew of initiatives and policy interventions centered around three key pillars of ease of doing business; distribution efficiency; and industry economics and benefits. Most of IRDAI’s initiatives, besides others focus on deepening insurance penetration.

THEME OF THE CONFERENCE

The key decision-makers of financial sector more importantly the insurance industry is in need to understand the nuances of risk management and then rework on the Governance, Risk, and Compliance (GRC) by aligning the organizational structure, policies, procedures, rules and build people competencies to cope with emerging risks. It is important that one needs to handle the elevated levels of risks arising from the impact of the pandemic on businesses.

Looking to the nuances of risks the insurance sector should be able to balance the risks of out sourcing and allocation of business resources to ensure better stakeholder value. Understanding and exploring innovations in fine tuning risk management strategies with the help of new technology tools - AI, Machine learning, robotics, simulations, sophisticated econometric models to better visualize the complexities of risks will be pertinent and relevant to the industry. In the insurance industry, risk management is defined as the act of anticipating potential risks, assessing them, and implementing preventive measures to mitigate risks. One essential risk - mitigating tool for adopting the best risk management is insurance. This is crucial since most firms might not be financially equipped to handle such likely losses, and insurance is the best way to mitigate any such risks. Hence the epicenter of the conference shall focus on risk management and insurance in the post pandemic commercial world.
