2-day Training Programme on **AML/CFT** For the Key Management Personnel of Compliance Function

About Training Program

Regulatory forbearance is bare minimum as far as compliance with specific mandates are concerned. This is more so with regard to the stringent guidelines, that are well in sync with global best practices, in the realms of AML-CFT. There is enough clarity on the possible outcome of non-compliance as spelt out in communications and advisories of the Ministry of Finance.

Keeping in view the above, it is deemed essential that the Principal Officers and other key management persons of insurance companies are reskilled and upskilled from time to time. It is in this context IIRM has curated the on program AML/CFT for the Principal Officers, to begin with. The support of FIU-IND, Ministry of Finance is also worthwhile in making the program comprehensive and objective.
