INSURANCE CONFERENCE - 2025

Theme: 'Leveraging InsurTech & AI for Insurance Transformation'

"The Insurance Conference 2025 brings together industry leaders, technology innovators, researchers, and regulators to explore how InsurTech and Artificial Intelligence are reshaping the future of insurance. With the sector undergoing rapid digital transformation, the conference will highlight how emerging technologies are driving efficiency, improving customer experience, enhancing fraud detection, and enabling data-driven decision-making.

Key discussions will focus on AI-powered underwriting, predictive claims management, digital distribution, customer-centric ecosystems, and sustainable insurance models.

Participants will gain valuable insights into practical applications, regulatory perspectives, and collaborative strategies that ensure innovation aligns

with trust, transparency, and inclusivity. This conference serves as a platform to share cutting-edge research, case studies, and best practices, while fostering partnerships that will define the next era of insurance transformation."

CONFERENCE TRACKS

Track 1: AI in Core Insurance Functions

- AI/ML for underwriting & risk assessment
- Claims prediction, loss forecasting & fraud detection
- Customer segmentation & retention analytics

Track 2: Intelligent Claims & Fraud Management

- Automated claims adjudication (NLP, computer vision, RPA)
- AI-powered fraud detection & prevention

Track 3: Emerging Tech & InsurTech Innovations

- Generative AI in product design & communication
- IoT, telematics & wearables for real-time risk monitoring
- Blockchain, smart contracts & InsurTech platforms

Track 4: Inclusive & Personalized Insurance Models

- Usage-based & behavior-linked insurance

- Microinsurance & financial inclusion through AI
- Health, wellness & preventive insurance solutions

Track 5: Responsible AI, Regulation & Governance

- Ethical & explainable AI (XAI) in insurance decisions
- Data privacy, Cybersecurity & RegTech compliance

Track 6: Customer-Centric Transformation

- Personalized customer journeys through predictive models
- Building trust & transparency with AI

Track 7: Global Best Practices & Future Outlook

- Climate risk & catastrophe modeling with AI
- Future frontiers: quantum computing & advanced AI

About IIRM

Institute of Insurance and Risk Management (IIRM) is a higher educational institute set up by IRDAI and Govt. of Telangana keeping in mind the rapid opening up of financial sector as a part of developmental responsibility and to create a pool of skilled, talented professionals for the insurance, risk management and related financial sectors. BFSI has been at its epicentre in creating leaders of tomorrow. The Insurance Conference 2025 will be held at the Institute of Insurance and Risk Management (IIRM), Gachibowli, Hyderabad, Telangana during March 13th & 14th 2026 (Friday & Saturday).

In this context IIRM invites full length research papers for the conference on the following broad theme "Leveraging InsurTech & AI for Insurance Transformation" and on other sub themes. Since insurance sector is a larger part of financial sector, papers on financial sector themes and on sub-themes will be included for incisive policy debate and discussions at the conference. Authors are requested to submit their papers addressing any of the suggested/indicative sub-themes or thereabout. We encourage paper writers from Academic, Industry practitioners and policy makers.
